

# GREEN INFRASTRUCTURE EXPERTS!

Certified, Licensed, Bonded,  
Insured - L.S.D.R.B.E (CBE)

LSDRE84839012027

## WHY CHOOSE US?

**ecospaces** is a premier green roof installation company and an accredited GRP business with nearly a decade of hands-on experience. We have a passion for sustainability that bleeds into our projects. We've meticulously created our own products which help us streamline the process - from design to install. We also have established relationships with local landscape architects and developers.

## NIGP CODES

145-60-00 Roofing

912-73-00 Paver Block Installation

988-52-00 Landscaping

918-43-00 Environmental Consulting

## ABOUT US

Creating sustainability, cleaning waterways, and increasing biodiversity in urban areas - where green infrastructure literally comes to life. **ecospaces** designs, installs and maintains green products such as green roofs, green walls, solar panels, permeable pavers, bio-retentions, and rain barrels in an effort to increase biodiversity and sustainability in urban areas. We also offer environmental consulting services.
